AWARDED
Business Superbrands
CZECH REPUBLIC'S CHOICE
2019–2023

2023 | EN

VM FOOTWEAR BRAND STRENGTHENED ITS POSITION IN THE OCCUPATIONAL SHOE MARKET AND DEFENDED THE PRESTIGIOUS CZECH BUSINESS SUPERBRANDS TITLE FOR THE FIFTH TIME IN A ROW!

Superbrands is the most respected independent global authority in the field of evaluation and branding. The title of Supebrands is a sign of a special position and recognition of the excellent brand position in the local market. The Superbrands seal will receive brands with an outstanding reputation - customers connect significant values and personal relationships. Since its inception in the UK, the project has gained worldwide recognition, and today the Superbrands Award is recognized as a special award which, on the basis of unified criteria and methods, identifies the best of the best brands in nearly 90 states on five continents every year.

WHO GETS THE TITLE SUPERBRANDS

The award of the Superbrands title for the given year is preceded by a multi-round tender. Individual brands can not be signed into the Superbrands program. The nomination is based on the database of all registered trademarks, which is released for this purpose by the Industrial Property Office. Bisnode company, the world's leading provider of business information, will create a list of nominated candidates based on business data and results. The next step is consumer research, one of the most important elements of the selection process, in which GfK Czech Republic agency, on the basis of connections and popularity, narrows the selection to the list of semifinalists. The final word for Superbrands title in the given year is the committee of the Brand Council. At the end of the rating process, consumers receive valuation of Superbrands, and business brands are awarded by the Business Superbrands title.

SUPERBRANDS PROGRAM CZECH REPUBLIC

Superbrands has resumed its operations in the Czech Republic in 2013. Since 2014, brands have been evaluated not only in the consumer, but also in the area of business or industrial (B2B) brands. While the first is publicly known and consumers are meeting them every day in the retail or service sector, business brands are important players in the specialized branch of industry, agriculture and commerce. Consumer and business Superbrands of the given year represent the absolute best between competitors. With Superbrands title we express our admiration and sincerely honor its results in the field of building a successful brand. The most important goal of Superbrands organization is not only to give away the most successful branding brands, but also to bring to the attention of consumers and the professional public the extremely strong brands operating on the Czech market and to present examples of good follow-up for market participants who would like to develop and inspire from the best. For this purpose, Superbrands organization arranges annually a joint PR and media program for award-winning brands, to which only the Superbrands and Business Superbrands of the given year are invited.

PICTOGRAMS

energy absorption in the heel area

outsole resistant to fuels oils /for occupational and safety shoes/

slip resistance

antistatic properties

protection against impact to 200 J and a pressure of 15 kN

protection of the footwear against punctures up to 1100 N

shoe upper resistance against penetration and water absorption

instep protection /for safety shoes only/

ESD antistatic properties

cold resistance

upper resistance against chain saw cutting

outsole resistant to contact heat up to 300°C

MICROFIBRE

Upper HIGH-TECH material composed of microfibers, reaching the appearance, breathability, water resistance and parameters of the natural leather. Shoes can be washed at 40°C.

SPACE COMFORT

The optimal width of shoes is guarantee the required comfort.

HARDHEEL STRUCTURED

Modern solutions of the heel shoe part, which ensures maximal stabilization of the foot while walking and standing.

FORCED CIRCULATION

Exhaust ventilation system combined with lining with absorbent capability. These shoes are "breathing" and provide maximum comfort.

ANATOMIC AIR COMFORT

Special insole with gel insert in the heel shock absorbing (absorbs energy) while walking - bamboo fiber ensures extraction of water vapor and optimal climate inside the shoe.

SOLES BY MICHELIN®

The outsoles are equipped with a combination of specially designed rubber compounds and are inspired by unique technical design of world famous brands Michelin® tires.

VM® | SYSTEMS

VM FOOTWEAR
ALWAYS A STEP AHEAD

METATARSAL

METATARSAL
Special protection system of the vamp, designated for the area of smelters, foundries, etc.

BOA®

BOA® Fit System
Patented „BOA® Fit System" is reinventing how newly tigh up the shoes. BOA® proprietary closure system of steel lace, nylon guides and a mechanical reel was designed to address the long list of deficiencies found in traditional closures.

ANTI-CUT

ANTI-CUT
Special inner lining, 100% KEVLAR in total weight of 650g/m2 With several layers it provides resistance against chain saw.

FREE-TEX® MEMBRANE
The membrane, as special sandwich of three vapor-permeable and a waterproof layers, together with innerlining and leather shoe uppers a perfect solution for optimum climate inside the shoe. Provides thermal-insulation, breathability and water resistance.

anatomic DRY SOLE

ANATOMIC DRY SOLE
Anatomic, comfortable and shaped insole with excellent water absorption and dries quickly.

NON METALIC

NON METALIC
Shoes without any metal components suitable for area that require it.

Fire & Fight

In the **Strong & Safety** category, we offer footwear that is suitable for indoor and outdoor use, for medium-heavy environments, industrial companies, logistics and transport, for various trades, for outdoor operations and warehouses. We bring part of the collection in this category with unique **Michelin® Technical Soles** and also with the unique patented **BOA® Fit System.**

SOLES BY MICHELIN®

SOLES BY MICHELIN®
The outsoles are equipped with a combination of specially designed rubber compounds and are inspired by unique technical design of world famous brands Michelin® tires.

FREE-TEX® MEMBRANE
Vapor-permeable, water-resistant membrane.

ANATOMIC DRY SOLE
Anatomically shaped insole with excellent absorbency and dryness.

NON METALIC
Shoes without any metal components suitable for area that require it.

FORCED CIRCULATION
Exhaust ventilation system combined with lining with absorbent capability. These shoes are "breathing" and provide maximum comfort.

SPACE COMFORT
Optimized ergonomics and shoe width.

HRO
The outsoles resistant to fuel oils and contact heat HRO up to 300 °C.

ABRASION-RESISTANT PUTEK FABRIC
High-strength polyamide fabric PUTEK

SAFETY BOOTS - CHAIN SAW RESISTANT - FULL GRAIN LEATHER

In the **Work & Tight** category, we offer footwear with an ultralight construction **(ULTRALIGHT)**, which is suitable for light environments, predominantly dry, indoor areas, clean operations, **ESD** environments, assembly halls, technical professions.

We bring part of the collection in this category with the unique **Michelin® Technical Soles** and also with the unique, patented **BOA® Fit System.**

VM FOOTWEAR

ALWAYS A STEP AHEAD

SOLES BY MICHELIN

SOLES BY MICHELIN®
The outsoles are equipped with a combination of specially designed rubber compounds and are inspired by unique technical design of world famous brands Michelin® tires.

anatomic DRY SOLE

ANATOMIC DRY SOLE
Anatomically shaped insole with excellent absorbency and dryness.

NON METALIC

NON METALIC
Shoes without any metal components suitable for area that require it.

BOA DIALED IN. PRECISION FIT.

BOA FIT® SYSTEM
Unique system of closing shoes.

FORCED CIRCULATION

FORCED CIRCULATION
Exhaust ventilation system combined with lining with absorbent capability. These shoes are "breathing" and provide maximum comfort.

MICROFIBRE

MICROFIBRE
Upper HIGH-TECH material composed of microfibers, reaching the appearance, breathability, water resistance and parameters of the natural leather.

SPACE comfort

SPACE COMFORT
Optimized ergonomics and shoe width.

ESD

ESD
Antistatic ESD properties

ANKLE OCCUPATIONAL SHOES
